Acquire High Quality, Construction and Development Materials with Timely Delivery and Huge Savings on Your Project Costs

Introduction

Our mission is to supply and deliver high quality fabricated and galvanized metal products to clients at competitive prices

OUR SERVICES - Making it easier for our clients

At AGT Industries, we make the lives of our clients easier by simplifying the entire procurement process by ensuring on time delivery. We have gained a reputation for bringing our clients high quality and affordable products and services.

We have access to various facilities and technical support which further enhances our capabilities to undertake all aspect of your projects from steel selection, fabrication, hot-dip galvanizing and timely delivery globally.

One-Stop Supply Center

For business and project owners, developers,
engineers and architects

Our ONE-STOP CENTER is designed to make it easier, faster and more cost effective to procure all kinds of materials that you may need for your development and construction projects

Our Objectives - What We Do

- Deliver high quality products
- Ensure timely delivery of finished materials
- Help you save and increase your profits
- Become your long-term trusted supplier

The cost of materials alone can add up to between 70-80% of project costs and a savings of even 5% can contribute to your bottom line. What if the savings are more? Work with us, we may surprise you! What have you got to lose?
